

**Biofuel Research Journal (BRJ)** is an open access online journal and completely free-of-charge publishes original articles, review articles, case studies, book reviews, short communications, and hypotheses on the fundamentals, applications, processing, and management of biofuels/bioproducts technologies.

The journal's aim is to advance and disseminate knowledge in all the areas related to biofuels and bioproducts. Those include biodiesel, bioethanol, biobutanol, biogas, biomass, algae, bioreactions, bioreactors, membrane-bioreactors, fermentation, biorefinery (e.g. membrane separation technology), bioprocesses, applied microbiology, combustion, and bioresource technologies associated with conversion or production of biofuels and bioproducts. Moreover, novel and integrated biofuel/bioprocesses and hybrid systems as well as energy audit for biofuel/bioprocesses production plants are of interest. The journal also seeks to publish articles with a focus on the application of artificial photosynthesis for production of biofuels and bioproducts, carbon footprint analysis, strategies for limiting greenhouse gas (GHG) emissions, life cycle assessment (LCA) and exergy analysis of biofuel/bioprocesses production/application pathways, compliance with the international standards (such as PAS 2050:2011 and ISO 14040:2006), technoeconomic analysis of biofuel/bioprocesses production/application, impacts of production/consumption of biofuels/bioproducts on climate change, futuristic pathways for production of biofuels/bioproducts, and promotion of biofuel/bioprocesses applications in the developing world for indigenous development.

BRJ calls for papers that cover the following fields:

### Bioproducts

**Biofuels: biodiesel, bioethanol, biobutanol, biogas, etc.**

**Biofuels/bioproducts production, modeling, and economics**

**Bioprocesses and bioproducts:** Bioreactions, biocatalysis, bioreactors, membrane-bioreactors, modeling and optimization, scale-up, supercritical technology, ionic liquids, and fermentations.

**Biomass and feedstock utilization:** Bioconversion of agro-industrial residues.

**Biorefinery:** Membrane separation technology, adsorption, solvent-extraction, etc.

**Environmental protection:** Simultaneous biological waste treatment and biofuels/bioproducts production, clean development mechanism.

**Thermochemical conversion of biomass:** Combustion, pyrolysis, gasification, catalysis.

**Algal biofuels and energy crops including energy crops genetic engineering**

**Application of artificial photosynthesis for biofuels/bioproducts production**

**Carbon foot-printing analysis and strategies for limiting greenhouse gas (GHG) emissions:** Life cycle assessment (LCA) analysis of biofuels/bioproducts production/application pathways and compliance with the international standards (such as PAS 2050:2011 and ISO 14040:2006).

**Exergy analysis of production/application pathways of biofuels/bioproducts**

**Technoeconomic analysis of production/application of biofuels/bioproducts**

**Impacts of production and consumption of biofuels/bioproducts on climate change**

**Futuristic pathways for biofuels/bioproducts production**

**Applications of biofuels/bioproducts in the developing world for indigenous development**

BRJ also covers the following fields:

- Process scale-up and economic analysis
- Process integration and zero discharge strategies
- Resource recovery
- Water-energy balance improvements
- Energy audit for biofuels/bioproducts production plants
- Biofuels & bioproducts in circular economy
- Biofuels & bioproducts finance

### Editor-in-Chief

Assoc. Professor Meisam Tabatabaei, Biofuel Research Team (BRTeam), Universiti Malaysia Terengganu, Terengganu, Malaysia, Tel: +60 9 6684100

E-mail: [meisam.tabatabaei@umt.edu.my](mailto:meisam.tabatabaei@umt.edu.my)

### International Advisory Board Members

Professor Yusuf Chisti, School of Engineering, Massey University, Private Bag 11222, Palmerston North, New Zealand, Tel: +64 6 350 5934, E-mail: [y.chisti@massey.ac.nz](mailto:y.chisti@massey.ac.nz)

Professor Ahmad Fauzi Ismail, Advanced Membrane Technology Research Centre (AMTEC), Universiti Teknologi Malaysia 81310, Skudai, Johor, Malaysia, Tel: +60 7 553 5592, E-mail: [afauzi@utm.my](mailto:afauzi@utm.my)

Professor Seeram Ramakrishna, Mechanical Engineering Department, National University of Singapore (NUS), Singapore, Tel: +65 6516 2216, E-mail: [seeram@nus.edu.sg](mailto:seeram@nus.edu.sg)

Professor Solange I. Mussatto, Novo Nordisk Foundation Center for Biosustainability, Technical University of Denmark, Denmark, Tel.: +45 93511891, E-mail: [smussatto@biosustain.dtu.dk](mailto:smussatto@biosustain.dtu.dk)

### Editorial Board Members

Aghbashlo, Mortaza

*University of Tehran, Iran*

Allakhverdiev, Suleyman

*Institute of Plant Physiology, Russian Academy of Sciences, Russia*

Bux, Faizal

*Durban University of Technology, South Africa*

Carlucci, Antonio Paolo

*University of Salento, Italy*

Demirbas, Ayhan

*King Abdulaziz University, Saudi Arabia*

Faaij, Andre

*University of Groningen, The Netherlands*

Hubbe, Martin A.

*NC State University, NC, USA*

Karimi, Keikhosro

*Isfahan University of Technology (IUT), Iran*

Keat Teong, Lee

*Universiti Sains Malaysia (USM), Malaysia*

Kennes, Christian

*Universidade da Coruña, Spain*

Kumar, Rajeev

*University of California, Riverside (UCR), CA, USA*

Kumar Gupta, Vijai

*Tallinn University of Technology (TalTech), Estonia*

Lane, Nick

*University College London, UK*
